G. S. Blodgett & Co's PORTABLE OVEN, for sale by J. DAVENPORT.

CONSUMPTION CURED!

THE MOST EFFECTIVE OF THE HYPOPHOSPHITES OF LIME AND SODA, An originally discovered and prepared by DR. J. F. CHURCHILL.

For the prevention and cure of CONSUMPTION, The salts of Lime and of Soda, are the only preparation which, for the present, I would recommend for general use.

THE THEORY, This is a diathetic general disease, depending upon the want or undue waste of the oxidizable Phosphorus normally existing in the animal economy.

THE TREATMENT, Hence it follows that the remedy consists in supplying the deficient element by the administration of a preparation of phosphorus which is at once assimilable and oxidizable.

What I AM ANXIOUS FOR, is that the Hypophosphites should be brought as speedily as possible into universal use.

READ THE TESTIMONY, We now see the rationale of the employment of the Hypophosphites of Lime and Soda, as recommended by Dr. Churchill.

WE IMPROVE THE NERVOUS SYSTEM, and invigorate the nutritive functions.—W. F. RUSSEL, M. D.

Winchester's Genuise Preparation, is put up in large bottles with the following words blown in the glass.
